BOSTON, MASS., WEDNESDAY, OCTOBER 28, 1908

PRICE THREE CENTS

CRITCHETT ELECTED SENIOR PRESIDENT

**Scharff and Belden Picked
to Serve On Institute
Committee**

RETURNS ANNOUNCED

**Finnie Vice President, Ferguson
Secretary, Shaw
Treasurer**

James H. Critchett has been elected president of the senior class. Critchett has made himself prominent in Institute and class affairs. He was clerk of the class during freshman year, right guard on the class football team, on the Institute Committee in the junior year, the Technique electoral committee, treasurer of Technique 1909, on the chorus of "The Freshman" in 1906, and was this year one of the original members appointed by the Institute Committee to serve on the student governing board of the Union.

To the Institute Committee, which is of second importance to the president, were elected Maurice R. Scharff and Charles J. Belden. Scharff is perhaps the most popular man in the senior class; he was president of the class in his freshman year, was business manager of Technique, an editor of The Tech, a prominent weight man on the track team, for three years a member of the Institute Committee, active in the affairs of the Civil Engineering Society and of the Exeter Club, and is now an eager worker on the Union committee.

The list of officers elected follows: president, James H. Critchett; vice-president, James I. Finnie; secretary, W. Craig Ferguson; Treasurer, Arthur L. Shaw; Clerk, Montague Flagg; Institute Committee, Chas. J. Belden, Maurice R. Scharff; Athletic Association, F. D. Applin, R. Ellis, F. J. Lange, J. N. Stephenson, E. Whitaker; executive committee, J. J. Elbert, Wm. J. Kelly.

RIVALRY OF COACHES

**Old Time Feeling Counts in Cross
Country—Teams Developing**

This year's Harvard-Technology cross-country race is developing into a duel between Coach Kanaly and Schrubbs of Harvard. Both champion distance runners in their respective countries, and opponents in many hard races, their rivalry has entered a new field, that of trainer.

This interest is accentuated as both Harvard and Technology have two victories to their credit for the cup which goes to the winner of this year's race. The race this year is practically for the cross-country championship of New England.

As regards the two teams there is little choice. Harvard has lost Crosby, last year's captain, but still has Capt. R. E. Dole, Whitney, Lanier and Carter of last year's team. Herbert Jacques, who ran two miles last Saturday in 9.50, is, however, their best man, and fills former Capt. Crosby's place very acceptably.

H. H. Howland will probably be the first Technology man to cross the line, with J. F. McCarthy 1909, E. Jacobs 1910, and McCreddie 1911, close behind. Howland, McCarthy, and McCreddie are Tech's best men and they are expected by Coach Kanaly to give Harvard's men the hardest kind of a race.

Jacobs, who showed up so well last spring, has by hard steady work made himself strong and consistent. C. P. Eldred 1911, is another man who has developed wonderfully during the past year. J. N. Stephenson 1909, will also make a fine showing.

Of the others on the squad Capt. Ellis, 1909, J. D. MacKenzie 1911, L. O. Mills 1910, and C. L. Campbell 1909 will probably do good work.

FRESHMEN KIDNAP 1911 TOASTMASTER

**Excitement at Sophomore
Dinner as Rumor Spreads
that Kimball is Missing**

ELECTIONS ANNOUNCED

**Race for Presidency is Close—
Salisbury Winning Out by a
Narrow Margin**

Accompanied by a body guard of 30 husky sophomores W. C. Salisbury was successfully accompanied to the Union last night to attend the 1911 Dinner. His election was generally expected, and the freshmen were on the lookout to avenge the treatment their temporary president had received at the hands of the sophomores.

The 40 assembled freshmen did, however, succeed in capturing Scott Kimball, president of last year's class, and elected to the Institute Committee at the polls this term. Kimball was to have acted as toastmaster at the dinner.

The 1912 enthusiasts spirited him away to a deserted house at 7 Marlboro St., access to which was obtained through a basement door by C. E. Hooper of Stone School, center on the 1912 football team. The door was locked and it was impossible for the 25 sophomores who came to rescue their classmate to gain access to the building. The conspirators ascended to the third floor and jeered the would-be rescuers, giving several hearty 1912 yells to tantalize them further.

Fearing interference from the police, who were now gathering on all sides, the sophomores frustrated in their attempts at rescue, started back to the Union. Hardly had they started when they came run upon fifteen freshmen leading T. B. Parker 1911, vice-president of his class. They evidently intended to administer to him the same punishment Kimball was receiving. But the sophomores, outnumbering their opponents, easily secured his release. They again started towards the Union, one squad of twelve men setting out for freshmen scalps.

Under the guidance of W. J. Seligman, N. N. Prentiss, Van Tassell and F. Dolke they kept together and captured G. W. Richards 1912. They tried to put him aboard an express train for South Framingham, but he escaped.

Later in the evening this same 1911 aggregation chased several freshmen. G. M. Keith, R. T. Gallagher and two others proved victims, while Robertson and Barnes of the 1912 football team escaped.

Keith and Gallagher were made to march to Rogers steps, where they sang several popular songs to the edification of their captors. Later an immense crowd gathered around Huyler's, where after eating college ices with their fingers, Keith, Gallagher and their companions proposed to the girls in the store. The situation now became interesting to an extreme. A few moments later hundreds of on-lookers gathered around the entrance of the Thorndike, where the humbled freshmen did all manner of stunts.

After the close of the meeting held in the committee room of the Union, the sophomores managed to capture between 15 and 20 freshmen at Copley Square. These were marched up and down Boylston Street, to the amusement of the theatre crowd.

Continuous clashes occurred until nearly mid-night.

At 11 P.M. a report came in that Scott Kimball had been rescued by the sophomores. The freshmen, fearing violence at the hands of the 1911 men, decided to take Kimball to the American House, where he would be safely kept for the night.

They chanced upon thirty sophomores (Continued on page 3.)

ROUTE OF PARADE FOR REPUBLICANS

**Formation Arrangement of
Delegations in
Procession**

UNIFORMS AND TORCHES

**Will be Exchanged for Tickets in
Gym—Red Fire at
Formation**

Largest of the New England college organizations in line will be the Technology delegation in the big Republican torchlight parade Friday night. B. S. Van Rensselaer, Harvard 1910, chief marshal, has completed arrangements for the success of the parade which is to be reviewed at the State House by Gov. Curtis Guild.

The procession will probably number at least 3,500, two-thirds college students and the remainder marching clubs from Essex county. All endeavor was made to interest Boston ward clubs, but Boston Republican voters have apparently laid aside torch and uniforms forever.

The parade will form in the Back Bay thus: Harvard on Beacon Street, about 900 strong, in three divisions, with three bands; seniors and sophomores in the first division, juniors and freshmen in the second, and the graduate school in the third, with Arthur Cable managing editor of the Crimson, and E. P. Currier, a captain of the baseball team, as marshals. The North Shore division on Marlboro St., probably at least 1,000 with a band. A. P. Loring, Jr., of Beverly, chief marshal; Tufts, about 200, Brown, about 200, B. U., about 100 and Amherst, about 50; each college except Amherst with a band, on Commonwealth Ave. and Technology, about 500 with a band, on Newbury St.

Dartmouth will send no delegation and Amherst only 50 because of the football game next day. Besides the seven bands there will be numerous drum-corps to add to the din.

The marshal of the M.I.T. first division will be Maurice R. Scharff, Business manager of Technique 1909; and of the second division, John W. Fitzwater, who has seen active service in the U. S. army. The marshal of the other colleges division will be J. Sterette of Tufts.

The parade will start at 6.30 P.M. and the route will be Beacon, Park, Tremont, Boylston, Huntington, Ruggles, Columbus, Massachusetts Ave. to Harvard bridge.

The Harvard division will continue on across the bridge to Cambridge.

Wagons will be provided in which the torches will be deposited after the parade, so that none will be scattered or used as shillalehs.

Uniforms will be given out at the Gymnasium Thursday from 12 to 6. The torches will be given out at the same place after twelve Friday. Men are requested to assemble with torches and uniforms on Newbury St., behind Rogers Building at 7.30 P.M. Friday. Red fire will be given out to those assigned to carry it at the rear door of Rogers Building on Newbury street. All men desiring to carry red fire must leave names at the Cage by tonight. Seniors and sophomores will form at Berkeley St. end of block; juniors and freshmen near Clarendon St.

Columns will be formed with a row of red fire bearers on each side. Several course societies and some of the classes are getting up transparencies. The Presidents of the classes will be expected to see that their classes are represented by a transparency.

FOOTBALL TODAY

The sophomore football team will play their third game this season this afternoon. They will be opposed by the crack Somerville High School team, which was defeated last Saturday by Waltham by a narrow margin.

TRAINING OF BODY A RECENT IDEA

**Introduced into College
40 Years Ago as
Innovation**

ADVANCE NOW POSSIBLE

**Dr. Sargent of Harvard Tells the
Freshmen of History and
Future of Athletics**

"Possible Advances of Physical Education in the American Colleges", was the subject of the last lecture by Dr. Dudley A. Sargent of Harvard University, given to the freshmen yesterday afternoon. Before discussing the present day conditions and the probable future of the system, Dr. Sargent gave a brief history of its struggle for existence and development during the last forty years.

He said in part:—
"It was not until the early sixties that attention began to be bestowed upon training of the body by colleges and preparatory schools. The first educators to recognize the need of a system of physical training were Presidents Stearns of Amherst, Harris of Bowdoin, McCosh of Princeton, and Eliot of Harvard. But the time was not then ripe for popular acceptance of the movement. Even some college presidents considered the culture of the body hardly worthy of serious attention. When in the early seventies the movement toward a system of physical training in colleges was really launched, it was brought about by a few college presidents with the aid of some of the more enthusiastic alumni who had been favorably impressed by the benefits derived from physical hardening obtained in the army. The hesitancy, however, of the college faculties to give the subject its proper place in the curriculum, making it instead a mere side issue, has resulted in the development of the spectacular features rather than an all-round physical training for the whole student body.

While the great athletic contests of our colleges and preparatory schools today unfortunately seem to be the chief end of physical training in our schools, they have really been of some benefit to the student class. They have attracted to the college strong athletic young men who would have turned immediately from the high school to active business life, if it had not been for the allurements of the chance to gain special training along these lines. This influx of sturdy specimens of young manhood has done much to raise the average physical standard of college men and to interest a large number in out-of-door sports.

The gymnasiums have come into ex-

Wednesday, October 28, 1908.

The Tech announces with deep regret the resignation of Channing Turner 1908. Holman I. Pearl 1910 has been elected editor-in-chief and Dudley Clapp 1910 managing editor.

Richard Howland Ranger 1911 has been elected to the board of editors. Guy Winford True 1911 has resigned from the business staff.

Last night a well established and most excellent custom was broken. In a jubilant outburst of class spirit, a hundred or more sophomores gathered in the Union assembly room to watch the forced antics of one single freshman. The latter was probably in no way harmed by the ordeal he was conducted through, but the whole performance was contrary to the spirit which should prevail in the Union as a gathering place open for all students at all times. Dean Burton, in his speech at the first large meeting there said of the older Union on Garrison Street that whatever its shortcomings had been, one fact would always remain to the credit of the men who had made use of it: they had always observed the spirit of good fellowship, and there had never been in its history a rough-house within its walls. He hoped and pleaded that the custom be continued and embodied in the splendid new quarters made possible by the generosity of friends of Technology. No credit is due to 1911 for backsliding in this respect.

CATHOLICS MEET

At the Catholic Club meeting held in 11 Pierce last night Father Walsh spoke to forty-two members about the missionary work of the Catholic priests in China and Japan since 1200 A.D. The election of freshmen to the club was postponed until the next meeting as many of the prospective members had been detained by the sophomores.

GRADUATE IN FICTION

W. H. Godfrey 1898 has just published a novel, "The Man Who Ended War," which shows that scientific training and the literary imagination can be blended to good purpose. The kernel of the plot is the discovery of a marvelous, but not inconceivable, radio-active substance, which causes metal exposed to it to disintegrate and disappear like a puff of smoke. The unknown who controls this secret uses it to compel the disarmament of the world and, when the governments scoff, shows its power by destroying first individual battle-ships and then whole fleets. The hero of the book, a young reporter, is hot on the track of "the man who will end all war"; and with the help of a physicist from Columbia and his scientifically trained but charming sister finds him at last. He and the charming sister find out something else, too; for Mr. Godfrey has an eye for human interest as well as for scientific wonders.

POSSIBLE WAYS OF USING CLASSIFIED ADS

TO SELL BOOKS OR TO LOCATE LOST ARTICLES

Economy is a basis principle of success. So, if you have some second hand books or drawing instruments that you have no further use for, insert a small classified advertisement in THE TECH.

But suppose that you want to find a lost article — just as simple — insert a small lost ad under the classified heading, stating exactly what you have lost. As both those who have and those who want read our classified column, you are bound to get results.

EXAMPLES

LOST. — Note book with initials A. K. S. on cover. Please leave at Cage for A. K. Simmons.

1st YEAR MATH. BOOK — for sale cheap, in excellent condition. Apply to X. Z. The Tech 30c.

CHEAP ISN'T IT?

TRAINING OF BODY

(Continued from page 1.)

istence as a part of the college machinery, largely to benefit the flat-chested scholarly student, who has signally failed to avail himself of the opportunity afforded. The scholarship man has become paler and the athletic student "fitter" as the physical standard and the scholarship standard has been raised by the keen competition, so that now the two classes of students are really farther apart than ever.

The great colleges and universities in the East are just waking to the fact that the extensive exploitation of athletics has been drawing to their halls student athletes instead of athletic students. To remedy this evil the colleges must recognize the subject of physical education as a department on an equality with any other. Some fifty institutions already have some such plan. Preliminary physical training in secondary and preparatory schools, which will give boys correct ideas as to its relative importance, must also be a part of the future educational scheme. To give some objective point to physical training, a physical examination should be required of every boy entering college. The colleges must give special attention to those men who are especially fitted by mental equipment to fill responsible positions in the world but who are lacking in bodily vigor, to gain an adequate physical equipment. For some years the policy of Harvard has been to provide facilities for the many instead of intensifying their interest in a few athletics. We are just beginning to learn with Spencer that "to play too good a game is the mark of an ill-spent youth."

Perhaps the most striking difference observable in the two great athletic contests held this summer in England and Germany was the all-round physical equipment of the German athletes and the highly specialized training along narrow lines of most of the contestants at the Olympic games. We have still much to learn from the far-sighted Germans.

Dr. Sargent finished his talk with a brief description of the most interesting features of these two athletic fetes at which he himself was present this summer.

PLANS

FRESHMEN KIDNAP

(Continued from page 1.)

in Boylston Street, who had little diffi-
culty in rescuing their classmate.

A carefully laid plan for the capture
of Salisbury was also unearthed. Seven
men had been waiting for the appearance
of the sophomore president, but when he
arrived with a body guard of thirty men,
they decided not to molest him.

At the dinner itself the enthusiasm of
the class was shown by a count of 138,
two more than last year. Kenneth
Greenleaf, acting toastmaster of the
evening, announced the results of the
election of class officers as follows: presi-
dent, William C. Salisbury; vice-presi-
dent, Theodore B. Parker; secretary,
Howard D. Williams; treasurer, Stuart
B. Copeland; clerk, Charles F. Hobson;
Institute Committee, Donald R. Stevens,
Scott P. Kimball; directors, Lloyd C.
Cooley, Harold M. Davis; Athletic As-
sociation, Wellesley J. Seligman, George
A. Cowee, Peter D. White, Edward D.
Van Tassel and W. D. Williams.

Dean Burton was the first to speak.
He told a few stories, but confined his
remarks chiefly to the class organization,
commending them for their recent move-
ment against the usual rough-house the
night before Field Day.

L. D. Nisbet, the sophomore tug-of-
war coach, spoke about the poor sup-
port that the class has been giving the
different teams, especially the tug-of-
war, and urged that on Field Day every
man even if not a member of one of the
teams should support the class.

Mr. Blackstein also gave a short talk,
enlivening his speech by a few of his
characteristic witty stories, and ended
by expressing the hope that once more
a sophomore class should win on Field
Day.

RELAY CAPTAIN PICKED

C. S. Read was chosen captain of the
freshman relay team. The squad also
voted to hire a rubber down daily from
now until Field Day. The squad of
eighteen men are out regularly and are
improving rapidly not only in speed but
also in passing the flag. The final trials
for the team will be held next Saturday.

SOUL KISS SEAT SALE

Seats for "Tech Night" at the Coloni-
al Theatre are now on sale in Rogers
corridor at 1 and 4 P.M. for seniors,
juniors and sophomores. Freshmen can
obtain seats from freshman theatre
committee. These are preliminary tick-
ets only and must be exchanged for the
regular tickets in Rogers corridor. In
no case will the preliminary tickets be
exchanged at the theatre for regular
tickets. The date on which the regular
tickets will be on hand for exchange
will be announced later.

Sophomore Theatre Committee.

1912 NOMINATIONS

Ballots Contains 26 Names—Votes
Due Saturday

Institute Committee rulings having
been passed on the nominations, the
freshman polls will open Wednesday
morning. Ballots may be obtained at
the Cage by giving your name so that
it may be checked from the list. The
ballot is to be placed in an envelope
which is to be signed with the voter's
name. The polls will close Saturday
and only the ballots of the voters who
have paid their dues will be counted.

A mistake was made by the printer
in the listing of the Athletic Commit-
tee, two names being placed on the same
line, and the nomination committee de-
sire that any man voting for Eicher
should place the cross to the left of
the name, and those voting for Mac-
Killar should place the cross to the right
of his name.

The following nominations have been
accepted:

President, L. B. Duke, Donald Kemp,
David Follet, Jr., H. Greenleaf.

Vice-president, Raycroft Walsh, Ed-
mund B. Moore, D. H. Radford.

Secretary, Seth H. Seelye, J. W. Con-
nelly, H. M. Foley.

Treasurer, Jack Martin, Charles H.
Carpenter, Erwin H. Shell.

Institute Committee, John M. Leddy,
Albert G. Gale, Arthur Campbell.

Athletic Committee, Seth H. Seelye,
Harvey Benson, J. Taylor, Joseph Boy-
er, E. A. Eicher, MacKillar, M. A. Oet-
tinger.

Executive Committee, Ruby, L. S.
Hooper, J. H. Lenaerts.

Of the candidates for president, Duke
played on the tennis team at the Me-
chanic Arts High School. Kemp was
president of his class at English High
School in 1907 and 1908; David Follet,
Jr., the present chairman, is an Andover
man, and Greenleaf is a Chauncy Hall
man.

HARE AND HOUNDS

This week the hare and hound run
will be held at Hyde Park. The first
run of the year was held here and the
record squad of 36 men enjoyed the fine
course and the shower baths and swim-
ming tank at the Y. M. C. A. The men
will run in the slow squad Saturday.
W. C. West 1910 will probably have
charge of the run. All the men who
have been out on any hare and hound
runs this fall or think they might like
to try cross-country work should come
out.

The fellows will leave the Back Bay
station at 2.19 P.M. Saturday. Round
trip fare is 25 cents.

COLLARS, Etc.

Macular Parker Company
400 WASHINGTON STREET

FOR nearly sixty years we
have made and sold cloth-
ing in Boston, and during the
entire period our aim has been
Quality—to furnish the best
clothing that can be made, the
best in quality of materials used
and in workmanship, style
and fit.

We are working on the same
lines today and are making in
our workshops on the premises
clothing for men, young men
and boys that will bear critical
examination.

NOTICES

AND BEST **A. W. FABER**

"CASTELL"

Drawing Pencils

Made of the purest graphite in 16 degrees
of hardness, 6B to 8H, of the utmost
delicacy of tone, perma-
nency, durability and
intensity of
color.

They take
the finest point
obtainable of any lead
pencil, are least liable to wear,
therefore more lasting than any others.

Sold by all stationers and dealers in artists' materials. Sample sent
to all parties interested on receipt of 10 cents in postage stamps.
